Seminar 2
week 2 (10 October- 14 October 2022)

A. Assignment A1 short discussion. At the section B we discuss the implementation of the assignment A1 on a very similar problem.

B. B. Please solve or continue the implementation of the Seminar 1 problem in the following manner:
1. Each student will try to solve alone the problem in the class for about 10 minutes.
2. Then the teacher and the students will write together the code.

Seminar 1 problem is the following:

In a box there are apples, cakes and books. Please display all entities which have their weight greater than 200 grams. In order to represent the box please use an array. Use Model-Repository-Controller-View to design the application architecture.
